

## **Testimonials**

“Inspections House to Home does a very thorough inspection and provides a top-notch, professional report. Inspector & Owner Bob Terrell’s building experience and extensive construction knowledge is extremely valuable. Knowing how homes of different eras are built is invaluable in understanding a home’s history and its individual “story.” I recommend him to anyone looking for a great inspector!”

“The relationship with a good inspection team is an important component to my business, so I'm glad to have found Bob & Daneen with Inspections House to Home. Bob's extensive experience as a General Contractor gives him a very unique skill set to be able to identify both good and subpar elements of a home. When I tell my clients about his knowledge and experience, they go into the inspection of their new home with confidence knowing that Bob's input is both detailed and honest. Daneen also has a keen eye for details and a professional approach to the process, and as a team they are efficient and thorough. The time saved by having a 2 person inspection team is extremely helpful to me and the homebuyers I work with. I will continue recommending House to Home to my clients and other agents”.
